

Decision Draft of the Minister Delegate to the Minister of Equipment, Transport and Logistics, in charge of Transport no. 2374-15 amending and supplementing the Decision of the Minister of Equipment and Transport no. 4127-12 of 27 Muharram 1434 (12 December 2012) laying down the form and the content of the propriety title and the sequence number of certain categories of vehicles and the terms of its delivery as it has been amended and supplemented.

Memo

- The 3rd article of the Decision of the Minister of Equipment and Transport no. 4127-12 of 27 Moharram 1434 (12 December 2012) specifies the required documents to obtain the propriety title and the plate bearing the serial number for mopeds, motorized tricycles and light quadricycles;
- The 4th article of the previous decision states that the presentation of the vehicle to the technical control center is required to perform this operation;
- The 6th article specifies the composition of the ordering number.

This project was developed to update the list of required documents to obtain the propriety title especially for manufacturers and their authorized representatives, to allow those with accreditation to obtain the propriety title in the name of purchaser without presenting the vehicle to the technical control centers, as well as to increase the number of digits designating the registration number of such vehicles.
